

How to show Sunday school lesson on the TV!

- Look around for anyone under 20 to help you and if that fails.....
- Turn on Hitachi TV with TV remote - red button
- Open computer - hit return. There is no password.
- Double click on the lesson for the day on the desktop (by date)
- Press the HDMI 1 button on black remote. Then use other small silver remote to turn on Apple TV (center button). Keep pressing until something happens!
- The volume is on the black TV remote
- Turn on Airplay on computer (choose "Fellowship Hall" on Apple TV menu) Icon looks like this: 
- Click the word "Slideshow" on the very top blue bar of the computer and hit "play from start"
- Run the slideshow with the spacebar
- The black slide is the video - click the tiny play button.
- Remember: our lesson and the slideshow can be shown just on the computer if it doesn't work to get it over to the TV.
- Good luck!!!!!!
